About Arrow Global

Established in 2005, Arrow Global specialises in the purchase, collection and servicing of non-performing and non-core assets. We identify, acquire and manage secured and unsecured loan and real estate portfolios from and on behalf of financial institutions, such as banks, institutional fund investors and specialist lenders.

We play an active role in helping financial institutions reduce their balance sheets and recapitalise in order to increase mainstream lending. By purchasing and managing non-performing loans and other non-core assets, we provide valuable capital and expertise to a growing European market.

We are a regulated business in all of our European markets, managing over GBP50.0 billion of assets across five geographies with over 1,700 employees.
